

Tronix Aircon Timer with Power-on-Delay (ACT-20)

Tronix Aircon Timer with Power-on-Delay (ACT-20) is an electronic device that saves energy and at the same time protects air conditioning units. It has an intelligent program that delays the air conditioner from turning on after a power failure or brownout. This allows the compressor enough time to re-start and to stabilize its internal pressure.

As soon as the power normalizes, the **ACT-20** delays electrical connection for about five (5) minutes before it automatically turns on the air conditioner.

I. INSTALLATION PROCEDURE

1. Plug in the Tronix Aircon Timer (ACT-20) into a 220V power source.
2. Plug in the air con's power cord into the Tronix ACT 20 air con outlet.
3. Turn on the air con according to the desired setting.
4. Turn on the Tronix ACT 20 by pressing the power switch. Time display will automatically set to zero (0). Power connection will delay for five (5) minutes before automatically turning on the air con. During power on delay, a blinking (d) is displayed.
5. Select the time of use for the air con by pressing the timer set. Choose from one (1) to nine (9) hours or continuous on. When set to continuous on, a dash (-) appears on the time display.

Note: If an electric fan is plugged into the ACT 20 fan outlet and is turned on, the electric fan will automatically turn on when the air con's timer lapsed.

II. TECHNICAL SPECIFICATIONS

Input Voltage:	170 – 260 Vac
Max. Load Capacity:	4 KVA
Time Selection:	1 to 9 hours; continuous on
Time Delay:	5 minutes
Dimension:	(L)-16 cm x (W)-11 cm x (H)-6 cm (L)-6.3" x (W)-4.3" x (H)-2.4"

Tronix ACT-20

III. PRODUCT WARRANTY STATEMENT

The **Tronix Aircon Timer with Power-on-Delay** is covered by a one year-warranty. Within this period, Innovatronix, Inc. will repair the item at no charge or if necessary replace defective parts. The warranty only covers failures due to manufacturing defects and workmanship, hence, breakdown of the unit due to gross abuse is not covered by the warranty.

This limited warranty extends only to the original consumer and is not transferable. Warranty registration is not required. Warranty is applicable if and only if the product is completely and correctly assembled, the product is used under normal conditions for its intended purpose, and received all necessary maintenance.

Parts and models are subject to change without prior notice.
