### Tronix Handy Air Blower

**Image 1**

**Image 2**

**Image 3**  
**(Tronix Handy Air Blower plugged to Tronix Explorer XT)**

---

## How does the Tronix Handy Air Blower work?

The Tronix Handy Air Blower uses a highly reliable motor and a specially-designed nozzle and blast ports for high air flow rate.

Its handheld design is best suited for directional and partial air flow - creating air blow effects on targeted parts of the photographer's subject such as a part of the model's hair or their outfits. The air flow can be controlled by the intermittently pressing the power control button. Made from a lightweight plastic and weighs only 2 kg, this handy air blower can be brought anywhere.

Other than air blowing, it can be used for collecting or blasting dust and other light objects and supplying fresh air.

This air blower model is AC-powered which makes it compatible with the [Tronix Explorer XT](#). This air blower model is only available in 230V and can also be plugged directly to a 220V convenience outlet.

### Performance

Duration (continuous and Explorer XT as power supply)	12 minutes
Duration (2 mins. ON and 1 min. OFF and Explorer XT as power supply)	19 minutes

**Note: Continuous running of this equipment should not exceed 30 minutes.**

---

## SAFETY INSTRUCTIONS

- ✓ You MUST read and understand this user's guide carefully before using the unit. It is recommended that you follow and observe all the tips listed in this guide.
  - ✓ Do not expose the unit to moisture and water.
  - ✓ The unit should not be subjected to damage or stress. It should be kept away from being stepped on or tripped over.
  - ✓ Do not use the unit if it has been dropped, subjected to massive blow or been damaged in any way.
  - ✓ Do not disassemble the unit. Improper alteration or modification can cause electric shock or fire. In doing this, the warranty is cancelled.
  - ✓ Always keep your unit in good working condition.
-

## **BASIC OPERATIONS**

### **Mounting and dismounting the nozzle and dust bag.**

- 1 Mounting the nozzle.
  - A. Insert the pin located inside the nozzle into the notch provided on the blast port, and fully turn the nozzle clockwise.
  - B. To dismount the nozzle, follow the above procedure in reverse order.
- 2 When using the blower for dust collection
  - A. Mounting the dust bag
    - I. Mount the dust bag on the blast port follow the same procedures described above for mounting of the nozzle.
  - B. Mounting of the nozzle
    - I. Insert the pin located on the inside of the nozzle into the notch provided on the suction port, and fully turn the nozzle clockwise

### **Using the blower**

- 1 Plug in the blower to Tronix Explorer XT (230Vac/50Hz model) or to a 220V wall socket
- 2 Pull the trigger located in the handle for focused air flow. By pulling the trigger and pushing the stopper, the switch will remain in ON position even when the trigger is released.
- 3 By pulling the trigger again, the stopper disengaged and the switch is turned OFF when the trigger is released. (Image 2)

---

## **MAINTENANCE**

1. Turn off the unit when not in use.
  2. When cleaning the unit, wipe it with a dry cloth. Do not use any liquid or detergents.
  3. When not in use coil the cables. Loose cables usually cause accidents.
-

## WARRANTY STATEMENT

The Tronix Handy Air Blower is covered by a one-year warranty from the date of purchase. From that date, the product should be free of any defect in material and workmanship and it will function in accordance with our stated performance.

Within this period, Innovatronix, Inc. will repair or replace defective parts. This warranty only covers failures due to manufacturing defects and workmanship; hence, breakdown of the unit due to gross abuse and normal wear and tear is not covered in this warranty.

There are no warranties by use except as stated therein. For unsafe and/or faulty repairs, Innovatronix, Inc. and/or sellers shall not be liable caused by such cases. Any alterations made to this product by unauthorized service technicians are the sole responsibility of the owner. Our maximum liability for any breach of this agreement or other claim to the use of this product shall not exceed the purchase price of the product by the customer.

Warranty registration is not required. Warranty is applicable if and only if the product is used under normal conditions for its intended purpose.

---

## CAUTION

**Do not make any changes or modifications to the product unless otherwise specified in this manual. Any change or modifications made, you could be required to stop the operation of the equipment.**

**Innovatronix shall not be liable for any damages or problems arising from the use of any options or any accessories products other than those designated for the product itself. The customer uses this product at his own risk and Innovatronix and/or seller will not be held liable under any circumstances for incidental or consequential loss, damage or injury, including but not limited to loss of properties, due directly or indirectly from the use of this product.**
