

Why choose Tronix Evo3 over other emerging digital photo printers?

Considerations	TRONIX EVO3	Low Priced Digital Printers
Marketability		
Material Cost per print	P1.37 for 3R P1.76 for 4R	Less than P2 material cost per print
After Sales Program	On-call Technical Support Team (phone, email and onsite service)	No reliable support team
Customer Waiting Time	No long waiting time. Customer can get their prints in a few minutes	Requires minimum orders
Return of Investment	Less than a year	Less than a year
Company Background	Backed up with an organized company to support your needs, established in 1991	-
Price and Machine Specifications		
Machine Price	P450, 000	P150, 000–P200, 000
Number of Printers	P450, 000 (4 printers)	2-3
Back up printers	Available, sold separately	-
Software	Tronix Evo3 Developed Software – designed to handle small to large volume printing	Commercially available software (Epson Easy Print, Photoshop, etc.) not designed for large volume printing
Report Generator for Accounting Purposes	Generates reports on sales and prints made (Tronix Evo3 Software) and feature on Auditing through Image Trail	-
Printing Capabilities		
Printing Speed	20 seconds per 3R print	Varies differently on the volume of images to be printed
Print Quality	Uses good quality and tested photo papers and inks	-
Software	Easy to Use software Allows different print sizes such as wallet sizes, 3R, 4R and A4. With easy image enhancement tools included in the software	-
